

Dust Cup Puncher

Reduce press set-up time

Have you ever had difficulty with installing dust cups on your tablet press? Have you ever lost the pre-punched tip of the dust cup? If so, we have a solution for you. IPR has designed an off-line, simple dust cup punching machine that can be used for B and D Tooling and any tool tip size.

Your Benefits

- ▶ Accurately and repeatedly punch dust cup on center
- ▶ Improve fit by punching dust cup upside down
- ▶ Reduce set-up time by punching dust cups off-line
- ▶ Increase quality by capturing every punched insert
- ▶ Increase safety by isolating the operator
